Popis

Turbo certifikáty umožňují investorům podílet se s pákovým efektem na výkonnosti podkladového aktiva. Long turbo certifikáty poskytují investorům nadprůměrné ziskové příležitosti na rostoucích trzích. V případě, že podkladové aktivum dosáhne nebo protne bariéru (knock-out úroveň), turbo certifikát předčasně expiruje. Investor může utrpět úplnou ztrátu investovaného kapitálu.

Bariéra a strike jsou denně upravovány. V případě, že kotace podkladového aktiva jsou v jiné měně, než je měna certifikátu, nebo v případě, že podkladovým aktivem je komoditní futures (roll-over), může dojít k odchylce.

"Riziko emitenta / účast věřitelů": Certifikáty nejsou kryty systémem ochrany vkladů. Existuje riziko, že Raiffeisen Bank International AG nebude schopna splnit své platební závazky z důvodu insolvence (riziko emitenta) nebo jakýchkoli oficiálních nařízení ("bail-in"). V takových případech může dojít ke ztrátě celého investovaného kapitálu.

Další informace o této kategorii produktů naleznete v naší [brožurě o Turbo certifikátech](#).

Minulá výkonnost není spolehlivým ukazatelem budoucích výnosů. Od spuštění tohoto finančního nástroje neuplynulo ani pět let.

Disclaimer

Riziko emitenta:

Certifikát jako dluhopis na doručitele není předmětem rakouské ochrany vkladů. Pokud v případě případě platební neschopnosti není emitent schopen splnit své závazky, závazky z certifikátu, nebo je schopen pouze splnit jen částečně, mohou majitelé certifikátů přijít o podstatnou část investovaného kapitálu, nebo dokonce úplnou ztrátu. Toto riziko se často označuje také jako „riziko emitenta“ nebo "riziko úvěruschopnosti".

Possibility of Bail-in:

The Federal Act on the Recovery and Resolution of Banks ("BaSAG") applies. The BaSAG regulates the possibility of the regulatory resolution of banks that have run into difficulties. Holders of certificates may be affected by such a regulatory measure with their claims to payment(s) (the so-called "bail-in"), and this may result in the loss of a substantial part of the invested capital or even a total loss for all types of certificates.

Turbo certifikáty

Co byste měli zvážit před nákupem:

- **Leverage/leverage effect:** The leverage effect of a Turbo Certificate means that fluctuations in the value of the underlying have a disproportionate impact on the value of the Turbo Certificate. Even small unfavourable developments in the underlying can lead to the loss of a significant portion of the capital invested, up to a total loss. The probability of a total loss is therefore greatly increased.
- **Financing costs:** Financing costs arise for the provision of the capital required for the structuring of the leverage in the open-end Turbo Certificate. These are taken into account by a daily adjustment of the strike price and the barrier and therefore lead to a reduction in the value of the Turbo Certificate.
- **Roll effect:** Turbo Certificates on commodities are usually based on commodity futures, which generally have a limited term. Before the end of their term ("expiry"), they are "rolled" into the new futures contract. Depending on the market situation, this can result in roll gains or roll losses. These are taken into account by adjusting the strike price and the barrier.
- **Market risk:** The value of the Turbo Certificate depends on the value of the underlying asset. Unfavourable developments in the underlying can cause disproportionate fluctuations in the value of the Turbo Certificate due to the leverage effect. This can lead to the loss of a significant proportion of the capital invested, up to a total loss.
- **Exchange rate fluctuations:** If the underlying is quoted in a different currency than the Turbo Certificate and the product does not provide for currency hedging, developments in the exchange rate will also have an impact on the value of the Turbo Certificate. This can further increase the loss from the Turbo Certificate due to the market risk.
- **Payouts of the underlying:** Dividends and comparable claims from the ownership of the underlying are not paid out to the certificate holders, as these are taken into account by adjusting the strike price and barrier of the Turbo Certificate

The information contained herein does not constitute an offer and is neither recommendations nor financial analyses. They are not a substitute for investor and investment-oriented advice on buying and selling the financial instrument.

The base prospectus (and any supplements) of the financial instrument, as well as the respective basic information sheet (KID), can be downloaded from the website of Raiffeisen Bank International AG (RBI) raiffeisenzertifikate.at/en/securities-prospectus/. The approval of the base prospectus does not constitute an endorsement of this financial instrument by the competent authority (FMA). You are about to acquire a product that is not easy and may be difficult to understand. We recommend reading the prospectus before making an investment decision.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change.

If the underlying is not quoted in the same currency as the product and if the certificate is not currency hedged, the foreign exchange rate influences the Certificate's price during the term (currency risk).

The value of the structured securities is additionally influenced by changes of prices for future deliveries of commodities traded on the futures market (futures market curve). Certificates on commodities are usually based on commodity futures, which generally have a limited maturity. Before their maturity ("expiration") they are "rolled" into the new futures contract. This can result in either "roll yield or roll losses, depending on the respective market situation. Any such yields or losses are taken into account when calculating the subscription ratio of the certificate.

The financial instrument and the associated product documents may not be offered, sold, resold or delivered or published, either directly or indirectly, to natural or legal persons who are resident/registered office in a country in which this is prohibited by law. In no event may this document be distributed in the United States of America ("U.S.A.") to U.S. persons and the United Kingdom ("U.K.").
