The Austrian leading index ATX®, which comprises the 20 heavyweights listed on the Vienna Stock Exchange, posted a price gain of more than 30% in 2017 and stood out as one of the leading indices worldwide. This came as no surprise for analysts and investors. The innovation power of Austrian companies and the focus on the growth markets in Eastern Europe contributed substantially to these favourable dynamics.

The Austria Winner 90% is suited for investors who expect the Austrian stock market to continue with its favourable performance and who want the majority of their invested capital to be protected as well.

The certificate enables investors to participate 100% in the performance of the ATX® and to benefit from price gains up to +30% – the cap is 130% of the starting value. Investors participate up to -10% in losses at the end of the term as the capital protection of 90% applies at maturity. The certificate has a term of six years. Details regarding opportunities and risks of the certificate are presented on the following page.

FUNCTIONALITY

Beginning of the term:

At the initial valuation date the **starting value** of the ATX® (closing price as of Mar 20, 2018) is determined.

End of the term:

At the end of the term, the performance of the ATX® is evaluated. Therefore, the index starting value is compared to the index closing price at the final valuation date (Mar 19, 2024). Investors participate 1:1 in the performance of the underlying index up to the cap of 130%. Thus, the maximum payout amount at the end of the term is limited at EUR 1,300 per nominal value. In case of a negative performance of the ATX® of more than 10%, the capital protection of 90% applies.

At the end of the term the investment is **90% capital protected** by Raiffeisen Centrobank AG, i.e. during the term price fluctuations may occur, but at the end of the term the investor obtains 90% of the nominal value in any case.
