FUNCTIONALITY

- At the initial valuation date the **starting value** (closing price of the STOXX® Europe ESG Leaders Select 30 index) is determined.
- At the final valuation date the closing price of the index is compared to the starting value and **one of the following scenarios will apply**:

SCENARIO 1: Index UNCHANGED or ABOVE the starting value

A) Index +20% or more → 40% yield + 100% nominal value

If the closing price of the index quotes at 20% or more above the starting value at the final valuation date, redemption at the maturity date is effected at 140% of the nominal value. This is equivalent to EUR 1,400 per EUR 1,000 nominal value and at the same time represents the maximum payout.

B) Index between +0 and +20% → 20% yield + 100% nominal value

Redemption is effected at 120% of the nominal value, equivalent to EUR 1,200 per EUR 1,000 nominal value.

SCENARIO 2: Index BELOW the starting value

If the STOXX® Europe ESG Leaders Select 30 index quotes below its starting value at the final valuation date, the capital protection applies and the certificate is redeemed at 100% of the nominal value at the maturity date. This is equivalent to EUR 1,000.
