DESCRIPTION

The 3.05% Europe/Global Bonus&Safety certificate enables investors to obtain a fixed interest rate of 3.05% annually. Redemption at the end of the term is effected at 100% provided that the EURO STOXX® Select Dividend 30 index and the STOXX® Global Select Dividend 100 index always quote above the barrier of 49% of their respective starting value during the observation period. If the barrier is violated, the investor is entirely subject to market risk.

This advertisement serves as non-binding information. The author assumes no responsibility for the accuracy, timeliness and completeness of this advertisement. The provided information is not an offer and is neither a recommendation nor a financial analysis. It does not replace investor-oriented and investment-oriented advice for the purchase and sale of the financial instrument. The base prospectus (including possible amendments) and the respective Key Information Document (KID) of the financial instrument are available on the website of Raiffeisen Bank International AG ("RBI") at www.raiffeisenzertifikate.at/en/securitiesprospectus. The approval of the Base Prospectus by the FMA should not be understood as an endorsement of the financial instruments described herein by the FMA. You are about to purchase a product that is not simple and may be difficult to understand. We recommend that you read the prospectus before making an investment decision. The investor bears the credit risk of RBI when purchasing the financial instrument. The certificate is subject to specific rules that may already be disadvantageous in case of a probable default of RBI (e.g. suspension of interest payments) - see www.raiffeisencertificates.com/en/basag. The price performance shown here is only an information about the historical price performance. Information on past performance is not a reliable indicator of future performance. The investment may lead to tax obligations that vary depending on the client's personal circumstances and future changes. Any limited tax liability in Austria concerning non-resident taxpayers does not imply tax exemption in the state of residence. Please note that due to legal requirements, the times stated here are based on the coordinated world time (UTC). The Central European Time (CET), which applies in Austria, Germany and other Central European countries, is calculated by adding one hour, the summer European Central Summer Time (CEST) by adding two hours. RBI is registered in the business register FN 122119m.

Effective as of 1 December 2022 Raiffeisen Centrobank AG has transferred its certificates business to Raiffeisen Bank International AG including (i) all associated rights and obligations, and (ii) the legal position as issuer of existing securities, i.e. outstanding securities issued by Raiffeisen Centrobank AG. Therefore, as of 1 December 2022, Raiffeisen Bank International AG constitutes the issuer of and the debtor under the securities referred to in the product brochure.

Please be aware that the product brochure reflects the legal situation at the date of its creation and does not contain any updated information about the issuer.

INVESTMENT WITH FIXED INTEREST RATE

In short:

The 3.05% Europe/Global Bonus&Safety certificate enables investors to obtain a fixed interest rate of 3.05% annually. Redemption is effected at 100% provided that both underlying indices the EURO STOXX® Select Dividend 30 and the STOXX® Global Select Dividend 100 always quote above the barrier of 49% of their respective starting value during the observation period. If the barrier is violated, the investor is entirely subject to market risk.

KEY FACTS

The certificate 3.05% Europe/Global Bonus&Safety is based on two renowned dividend indices. The European **EURO STOXX® Select Dividend 30** index and the global **STOXX® Global Select Dividend 100** index serve as underlyings for this certificate. This certificate is suited for investors who expect a stable performance of the two underlying indices in the upcoming five years, and who deem price slumps of 51% or more as unlikely to occur. The investment product without capital protection combines fixed interest payments of 3.05% annually with a barrier of 49% as safety mechanism. The certificate has a term of five years. Please consider the opportunities and risks which are shown on the next page.

FUNCTIONALITY

At the initial valuation date, the closing price of the EURO STOXX® Select Dividend 30 index and the closing price of the STOXX® Global Select Dividend 100 index are fixed as **starting values** and the respective **barriers** (49% of the respective starting value) are determined.

- The **fixed interest rate** of 3.05% is paid out annually, regardless of the performance of the two underlying indices (equivalent to 5x EUR 30.5 per nominal value).
- **Redemption** of the nominal value at the end of the term depends on the performance of the two indices. The index prices are continuously compared to their respective barrier during the observation period. At the final valuation date **one of the following scenarios** will apply:

SCENARIO 1: Both underlyings always quoted ABOVE their respective barrier

If the EURO STOXX® Select Dividend 30 index **AND** the STOXX® Global Select Dividend 100 index always quoted above the barrier of 49% of their respective starting value during the observation period, the certificate is redeemed at 100%. This means that if none of the two indices ever declines by 51% or more compared to its starting value during the observation period, investors obtain the nominal value of EUR 1,000 at the maturity date. This amount represents the maximum payout.

SCENARIO 2: One or both underlyings TOUCHED or UNDERCUT the barrier

If the EURO STOXX® Select Dividend 30 index **AND/OR** the STOXX® Global Select Dividend 100 index touched or undercut the barrier of 49% of the respective starting value during the observation period, redemption at the maturity date is effected according to the index which has performed "worst" (percentage change from the starting value to the closing price at the final valuation date). Even if the barrier is touched or undercut, the maximum payout is limited to EUR 1,000 per nominal value and investors do not participate in price increases of the indices beyond their respective starting values.

EURO STOXX® SELECT DIVIDEND 30 INDEX

The EURO STOXX® Select Dividend 30 index tracks the performance of 30 high dividend yielding stocks of the eurozone. STOXX Ltd. continuously updates the index value. Among others, the index includes the following well-known constituents:

Allianz SE	Daimler AG
AXA S.A.	Munich Re AG
BASF SE	Orange SE
BNP Paribas S.A.	Unilever N.V.

The **current level** of the EURO STOXX® Select Dividend 30 index at 2,063.98 (closing price) as of April 23, 2019 would result in a barrier of 1,011.350 (equals 49% of 2,063.98).

Please note that past performance is no reliable indicator of future results.

STOXX® GLOBAL SELECT DIVIDEND 100 INDEX

The STOXX® Global Select Dividend 100 index comprises one hundred of the highest dividend yielding companies worldwide. It is calculated by STOXX Ltd. and contains 40 components from the Americas and 30 components each from Europe and Asia/Pacific. Reknown constituents in the index are:

AT&T Inc.	Pfizer Inc.
Ford Motor Co.	Royal Dutch Shell plc
HP Inc.	Swisscom AG
IBM Corp.	Zurich Insurance Group AG

The **current level** of the STOXX® Global Select Dividend 100 index at 2,848.38 (closing price) as of April 23, 2019 would result in a barrier of 1,395.706 (equals 49% of 2,848.38).

NOTE

The referenced opportunities and risks represent a selection of the most important facts regarding the product.

For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at www.rcb.at/en/securitiesprospectus, in the key information document and among „Customer Information and Regulatory Issues“ at www.rcb.at/en/customerinformation

OPPORTUNITIES

▫ Fixed interest rate:

The fixed annual interest amount is paid out regardless of the performance of the two underlying indices.

▫ Safety buffer:

Attractive yield in sideways moving and moderately decreasing markets due to the partial protection against falling prices until the barrier of 49% of the respective index-starting value (safety buffer 51%)

▫ Secondary market:

Tradability on the secondary market, no management fees

RISKS

▫ Barrier violation:

If the respective barrier is violated by at least one of the two underlyings, investors are entirely subject to market risk, without any protective mechanism.

▫ Limited yield opportunity:

The yield is in any case limited to the fixed interest rate (5 x 3.05%). Investors do not participate in price increases of the underlyings beyond their respective starting values.

▫ Issuer risk / Bail-in:

Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

DISCLAIMER

In spite of all possible care taken, the data contained in this marketing communication are provided purely as non-binding information. This marketing communication constitutes neither investment advice, an offer or a recommendation nor an invitation to execute a transaction. The information contained in this marketing communication is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this marketing communication substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This marketing communication has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The sole legal basis for all financial instruments described in this marketing communication is the Base Prospectus (including any possible supplements or amendments) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the financial instruments. The approved Base Prospectus (including any possible supplements or amendments) has been deposited at the Oesterreichische Kontrollbank AG. These documents as well as further information are provided on the website of Raiffeisen Centrobank AG at www.rcb.at/en/securitiesprospectus or www.rcb.at. Additional information on the financial instruments described herein may also be obtained from the respective key information documents that are available for download on the website of Raiffeisen Centrobank AG (www.rcb.at). Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein.

Structured securities are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Structured securities react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying.

Issuer Risk/Creditor Participation ("bail-in"): Any payments for structured securities during the term or at the end of the term depend on the solvency of the issuer (issuer risk). Investors are exposed to the risk that Raiffeisen Centrobank AG as an issuer might be unable to fulfil its obligations in respect of the described financial instruments, such as in the event of insolvency (inability to pay/over-indebtedness) or a legal order to initiate resolution measures. The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed information is available at www.rcb.at/en/basag. Under certain circumstances, the issuer has the right to redeem the certificate prior to the maturity date. A total loss of the capital invested is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.
