DESCRIPTION

With the certificate **Europe/Austria Bonus&Safety 3** investors can obtain a bonus yield of 20% (based on the issue price) at the end of the term (July 2024) if the prices of the two indices EURO STOXX 50® and ATX 50® never decline by 51% or more of the respective starting value during the observation period. Due to the cap at 120% this represents the maximum payout. If at least one of the two indices touches or undercuts the barrier of 49% of the starting value, redemption will be effected according to the index performance (percent index performance of the worse performing index from the Initial to the Final Valuation Date). Even if the bonus mechanism is suspended, investors can generate a maximum yield of 20% over five years term.

The provided information is not an offer and is neither a recommendation nor a financial analysis. It does not replace investor-oriented and investment-oriented advice for the purchase and sale of the financial instrument. The base prospectus (including possible amendments) and the respective Key Information Document (KID) of the financial instrument are available on the website of Raiffeisen Bank International AG ("RBI") at www.raiffeisenzertifikate.at/en/securitiesprospectus. The approval of the Base Prospectus by the FMA should not be understood as an endorsement of the financial instruments described herein by the FMA. You are about to purchase a product that is not simple and may be difficult to understand. We recommend that you read the prospectus before making an investment decision. The investor bears the credit risk of RBI when purchasing the financial instrument. The certificate is subject to specific rules that may already be disadvantageous in case of a probable default of RBI (e.g. suspension of interest payments) - see www.raiffeisencertificates.com/en/basag. The price performance shown here is only an information about the historical price performance. Information on past performance is not a reliable indicator of future performance. The investment may lead to tax obligations that vary depending on the client's personal circumstances and future changes. Any limited tax liability in Austria concerning non-resident taxpayers does not imply tax exemption in the state of residence. Please note that due to legal requirements, the times stated here are based on the coordinated world time (UTC). The Central European Time (CET), which applies in Austria, Germany and other Central European countries, is calculated by adding one hour, the summer European Central Summer Time (CEST) by adding two hours. RBI is registered in the business register FN 122119m.

Effective as of 1 December 2022 Raiffeisen Centrobank AG has transferred its certificates business to Raiffeisen Bank International AG including (i) all associated rights and obligations, and (ii) the legal position as issuer of existing securities, i.e. outstanding securities issued by Raiffeisen Centrobank AG. Therefore, as of 1 December 2022, Raiffeisen Bank International AG constitutes the issuer of and the debtor under the securities referred to in the product brochure.

Please be aware that the product brochure reflects the legal situation at the date of its creation and does not contain any updated information about the issuer.

The certificate Europe/Austria Bonus&Safety 3 is based on two renowned stock indices. The European benchmark index **EURO STOXX 50®** and the Austrian benchmark index **ATX®** serve as underlyings for this certificate. This investment product is suited for investors who expect these two indices to perform stably in the upcoming five years and who deem price slumps of 51% or more unlikely to occur. The certificate offers investors the opportunity to obtain an attractive bonus yield of 20% (equals 3.71% p.a.) while offering partial protection for the invested capital. The initial distance to the barrier (safety buffer) is 51%. The certificate has a term of five years. Further details regarding opportunities and risks of this certificate are presented on the following page.

FUNCTIONALITY

At the initial valuation date, the closing price of the EURO STOXX 50® index and the closing price of the ATX® index are fixed as **starting values** and the respective **barriers** (49% of the respective starting value) are determined. During the observation period the prices of both the EURO STOXX 50® index and the ATX® index are continuously compared with the respective barrier. If the bonus amount is paid out at the end of the term depends on the performance of the two underlying indices. At the final valuation date one of the following scenarios will apply:

SCENARIO 1: both indices always quoted ABOVE the barrier

If both the EURO STOXX 50® index **AND** the ATX® index always quoted above the barrier of 49% of their respective starting value during the observation period, the certificate is **redeemed at 120%** of the nominal value. This means, provided that none of the two indices ever declines by 51% or more compared to its starting value, investors obtain EUR 1,200 per nominal value at the maturity date. Due to the cap, this amount represents the maximum payout.

SCENARIO 2: barrier TOUCHED or UNDERCUT by at least one index

If the EURO STOXX 50® index **AND/OR** the ATX® index touched or undercut the barrier of 49% of the respective starting value during the observation period, redemption at the maturity date is effected according to the performance of the index that performed worst (percentage change from the starting value to the closing price at the final valuation date). Even if the barrier has been touched or undercut, the maximum payout remains limited at EUR 1,200 per nominal value and investors do not participate in price increases of the underlyings beyond the bonus level/cap.

EURO STOXX 50® INDEX

The EURO STOXX 50® index is the leading blue-chip index for the Eurozone. It comprises 50 major listed companies from eight eurozone countries. STOXX Ltd. continuously updates the index value. Among others, the index includes the following well-known constituents:

Allianz SE

Banco Santander S.A.

BASF SE

Sanofi S.A.

SAP SE

Siemens AG

Total S.A.

Unilever N.V.

The **current level** of the EURO STOXX 50® index at 3,425.64 (closing price) as of May 17, 2019 would result in a barrier of 1,678.564 (equals 49% of 3,425.64).

Please note that past performance is no reliable indicator for future results.

ATX® INDEX

The Austrian benchmark index ATX® comprises the 20 biggest Austrian companies which are listed on the Vienna Stock Exchange. Criteria for inclusion of companies in the ATX® are capitalized free float and stock exchange trading volume. Among others, the index includes the following well-known constituents:

Andritz AG

CA Immobilien Anlagen AG

Erste Group Bank AG

OMV AG

Raiffeisen Bank International AG

Verbund AG

voestalpine AG

Wienerberger AG

The **current level** of the ATX® index at 3,058.50 (closing price) as of May 17, 2019 would result in a barrier of 1,498.665 (equals 49% of 3,058.50).

NOTE

The referenced opportunities and risks represent a selection of the most important facts regarding the product.

For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at www.rcb.at/en/securitiesprospectus, in the key information document and among „Customer Information and Regulatory Issues“ at www.rcb.at/en/customerinformation

OPPORTUNITIES

Attractive bonus yield:

Opportunity to obtain 20% yield in sideways moving and even in moderately declining markets

Safety buffer:

Partial protection against falling prices due to the initial safety buffer of 51% – barrier at 49% of the respective index starting value

Secondary market:

Tradability on the secondary market, no management fees

RISKS

Barrier violation:

If the respective barrier is violated by at least one of the two underlyings, investors are entirely subject to market risk, without any protective mechanism.

Limited yield opportunity:

The opportunity to generate yields is in any case limited by the bonus level/cap, therefore the maximum yield amounts to 20% in five years (equals 3.71% p.a.) based on the issue price of 100%.

Issuer risk / Bail-in:

Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

DISCLAIMER

In spite of all possible care taken, the data contained in this marketing communication are provided purely as non-binding information. This marketing communication constitutes neither investment advice, an offer or a recommendation nor an invitation to execute a transaction. The information contained in this marketing communication is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this marketing communication substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This marketing communication has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The sole legal basis for all financial instruments described in this marketing communication is the Base Prospectus (including any possible supplements or amendments) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the financial instruments. The approved Base Prospectus (including any possible supplements or amendments) has been deposited at the Oesterreichische Kontrollbank AG. These documents as well as further information are provided on the website of Raiffeisen Centrobank AG at www.rcb.at/en/securitiesprospectus or www.rcb.at. Additional information on the financial instruments described herein may also be obtained from the respective key information documents that are available for download on the website of Raiffeisen Centrobank AG (www.rcb.at). Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein.

Structured securities are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Structured securities react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying.

Issuer Risk/Creditor Participation ("bail-in"): Redemption or repayment of the certificate at the end of the term is dependent on the solvency of the issuer (issuer risk). Investors are exposed to the risk that Raiffeisen Centrobank AG as an issuer might be unable to fulfil its obligations in respect of the described financial instruments, such as in the event of insolvency (inability to pay/over-indebtedness) or a legal order to initiate resolution measures. The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed information is available at www.rcb.at/en/basag. Under certain circumstances, the issuer has the right to redeem the certificate prior to the maturity date. A total loss of the capital invested is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.
