## DESCRIPTION

With the certificate **Europe Inflation Bonus&Safety 6** investors receive an annual interest rate consisting of two components: 0.4% fixed interest rate plus the euro area inflation rate. The nominal amount is repaid at 100% if the EURO STOXX 50® index always quotes above the barrier of 49% of its starting value during the term. In the event of a barrier violation, investors are exposed to market risk on a one-to-one basis. In this case, a substantial capital loss is possible.

Details on the index can be found on the website of the index provider STOXX

This advertisement serves as non-binding information. The author assumes no responsibility for the accuracy, timeliness and completeness of this advertisement. The provided information is not an offer and is neither a recommendation nor a financial analysis. It does not replace investor-oriented and investment-oriented advice for the purchase and sale of the financial instrument. The base prospectus (including possible amendments) and the respective Key Information Document (KID) of the financial instrument are available on the website of Raiffeisen Bank International AG ("RBI") at [www.raiffeisenzertifikate.at/en/securitiesprospectus](http://www.raiffeisenzertifikate.at/en/securitiesprospectus). The approval of the Base Prospectus by the FMA should not be understood as an endorsement of the financial instruments described herein by the FMA. You are about to purchase a product that is not simple and may be difficult to understand. We recommend that you read the prospectus before making an investment decision. The investor bears the credit risk of RBI when purchasing the financial instrument. The certificate is subject to specific rules that may already be disadvantageous in case of a probable default of RBI (e.g. suspension of interest payments) - see [www.raiffeisencertificates.com/en/basag](http://www.raiffeisencertificates.com/en/basag). The price performance shown here is only an information about the historical price performance. Information on past performance is not a reliable indicator of future performance. The investment may lead to tax obligations that vary depending on the client's personal circumstances and future changes. Any limited tax liability in Austria concerning non-resident taxpayers does not imply tax exemption in the state of residence. Please note that due to legal requirements, the times stated here are based on the coordinated world time (UTC). The Central European Time (CET), which applies in Austria, Germany and other Central European countries, is calculated by adding one hour, the summer European Central Summer Time (CEST) by adding two hours. RBI is registered in the business register FN 122119m.

Effective as of 1 December 2022 Raiffeisen Centrobank AG has transferred its certificates business to Raiffeisen Bank International AG including (i) all associated rights and obligations, and (ii) the legal position as issuer of existing securities, i.e. outstanding securities issued by Raiffeisen Centrobank AG. Therefore, as of 1 December 2022, Raiffeisen Bank International AG constitutes the issuer of and the debtor under the securities referred to in the product brochure.

Please be aware that the product brochure reflects the legal situation at the date of its creation and does not contain any updated information about the issuer.

## NOTE

The referenced opportunities and risks represent a selection of the most important facts regarding the product.

You are about to purchase a product that is not easy and difficult to understand.

For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at [www.rcb.at/en/securitiesprospectus](http://www.rcb.at/en/securitiesprospectus) (we recommend reading the prospectus before making an investment decision), in the key information document and among „Customer Information and Regulatory Issues“ at [www.rcb.at/en/customerinformation](http://www.rcb.at/en/customerinformation)

Redemption of the nominal value at the end of the term depends on the performance of the underlying. The price of the EURO STOXX 50® Index is continuously compared to the barrier. One of the following scenarios will apply:

### SCENARIO 1: The underlying always quoted ABOVE its barrier

If the price of the EURO STOXX 50® index was always quoted above the barrier of 49% during the observation period, the redemption is effected at 100% of the nominal value. In this case, investors receive the nominal value of EUR 1,000 on the maturity date. This amount represents the maximum payout.

### SCENARIO 2: Barrier TOUCHED or UNDERCUT

If the price of the EURO STOXX 50® index has touched or undercut the barrier of 49% of the starting value at least once, the payout on the redemption date is 1:1 in line with the index performance (percentage performance from the starting value to the closing price on the final valuation date). Even if the barrier is touched or undercut, the maximum payout amount remains limited to EUR 1,000 per nominal value and investors do not participate in price gains of the underlying above the starting value.

## EUROREGION HICP-TOTAL INDEX EXCLUDING TOBACCO

Harmonized Indices of Consumer Prices (HICPs) are intended for international comparisons of consumer price inflation. They are used, for example by the European Central Bank, to monitor price stability in the context of monetary policy. The ECB defines price stability on the basis of the annual rate of change of the HICP for the euro zone. For the certificate, the HICP excluding tobacco is used.

## OPPORTUNITIES

- **Interest rate:**  
The annual interest rate is paid out regardless of the performance of the underlying.
- **Safety buffer:**  
Partial protection against price losses through the initial safety buffer of 51 % - barrier at 49 % of the starting value
- **Flexibility:**  
Tradability on the secondary market, no management fees

## RISKS

- **Barrier violation:**  
If the respective barrier is violated, investors are entirely subject to market risk, without any protective mechanism. Close to the barrier, disproportionate price movements of the certificate may also occur during the term.
- **Limited yield opportunity:**  
The yield is in any case limited to the fixed annual interest payments. Investors do not participate in price increases of the underlyings beyond their starting values.
- **Issuer risk / Bail-in:**  
Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

## DISCLAIMER

In spite of all possible care taken, the data contained in this advertisement are provided purely as non-binding information. This advertisement constitutes neither investment advice nor, an offer nor a recommendation nor an invitation to execute a transaction. The information contained in this advertisement is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this advertisement substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This advertisement has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Base Prospectus (including any possible supplements) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the described financial instruments. The approved Base Prospectus (including any possible supplements) and the respective Final Terms have been deposited at the Oesterreichische Kontrollbank AG as the notification office. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the FMA. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of Raiffeisen Centrobank AG ([www.rcb.at](http://www.rcb.at)) by entering the International Securities Identification Number (ISIN) of the respective financial instrument. Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein. Certificates are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date.

**Issuer Risk/Creditor Participation ("bail-in"):** Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at [www.rcb.at/en/basag](http://www.rcb.at/en/basag). A total loss of the invested capital is possible. Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information. The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The Bonus Certificate's price is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), bond interest rates, solvency of the issuer or remaining term. If the Bonus Certificate is sold prior to the end of the term, there is the risk to incur a partial or even total loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Bonus Certificate and are not paid out.
