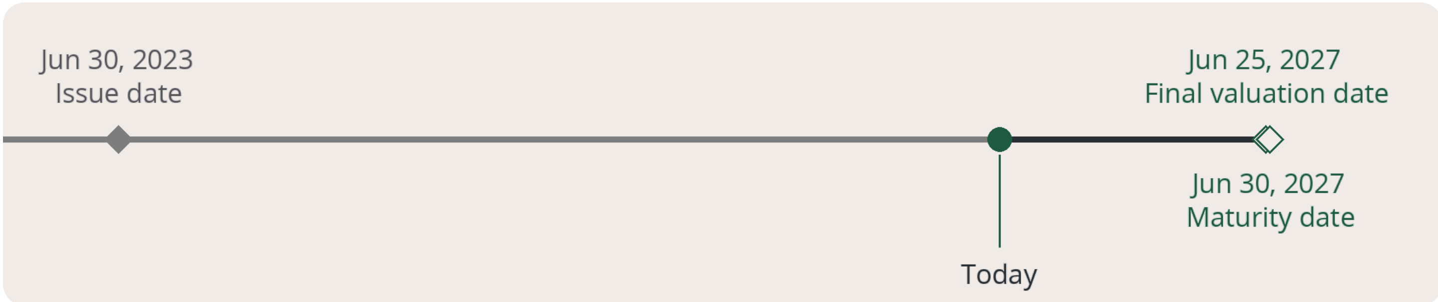
The Certificate

Capital Protection Certificates enable investors to invest into an underlying such as shares, indices, commodities etc. and to be capital protected at the end of the term. Investors obtain either interest payments or participate in the performance of the underlying. This certificate complies with the sustainability standard for Raiffeisen Certificates and takes into account important adverse impacts on sustainability factors ("PAIs").

Sustainability

This certificate complies with the sustainability standard for Raiffeisen Certificates.

Information on the term



Please note:

- 100% of the nominal amount is secured by capital protection at the end of the term. During the term, the price may fall below the issue price or the capital protection level. Selling the capital protection certificate before the end of the term may lead to a loss of part of the invested capital.
- The maximum repayment is limited to 100% + 26% (of the nominal amount).
- Loss of purchasing power due to inflation is not offset by the capital protection.

Issuer risk / creditor participation: Certificates are not covered by the deposit protection system. There is a risk that Raiffeisen Bank International AG may not be able to meet its payment obligations due to insolvency (issuer risk) or any official orders ("bail-in"). In such cases, the invested capital may be lost in full.

Notes:

You are about to purchase a product that is not easy and difficult to understand. For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at www.raiffeisenzertifikate.at/en/securitiesprospectus (we recommend reading the prospectus before making an investment decision), in the key information document and among „Customer Information and Regulatory Issues“ at www.raiffeisenzertifikate.at/en/customer-information. The approval of the base prospectus by the competent authorities is not to be understood as an endorsement of the product by these authorities.

YIELD OPPORTUNITY WITH SUSTAINABLE INVESTING

The Premium ESG Protected Certificate 7 enables investors to obtain a coupon at the predetermined rate of 26% (6.5% annually/5.94% p.a.) in addition to 100% of the nominal value at the end of the term. The coupon is paid out if the underlying MSCI® World Top ESG Select 4.5% Decrement index quotes at or above the starting value at the final valuation date (25.06.2027). In case the index declines below the starting value at the end of the term, the capital protection of 100% applies and no coupon is paid out.

In recent years, people have increasingly focused on environmental, social and governance (ESG) criteria not only in everyday decisions, but also in investing. Therefore, many investors have become interested in investing in the stock market of sustainable companies, but may still be concerned about the full market risk. The Premium ESG Protected Certificate 7, which is based on the global index of sustainable stocks from the renowned company MSCI®, can be the solution to this dilemma.

How the certificate works

At the initial valuation date, the starting value of the MSCI® World Top ESG Select 4.5% Decrement Index is determined (closing price as of Jun 29, 2023). At the end of the term, the performance of the MSCI® World Top ESG Select 4.5% Decrement Index is evaluated. This means that at the final valuation date (Jun 25, 2027) the index closing price is compared to the starting value. At the final valuation date one **of the following scenarios applies:**

1. Final value of the index ≥ 100% of the starting value
→ 26% coupon and redemption at 100% of the nominal value
In addition to the 100% of the nominal value, investors obtain the coupon of 26% of the nominal value (equals EUR 260 per EUR 1,000 nominal value).

2. Final value of the index < 100% of the starting value
→ redemption at 100% of the nominal value (capital protection) and no coupon payment
In case the underlying index declines below the starting value at the end of the term, the investor obtains no coupon and the capital protection of 100% applies.

* at the final valuation date, in comparison to the starting value.
** provided the certificate was purchased at the issue price of 100%.

Permanent liquidity

The term of the certificate is 4 years. Raiffeisen Certificates provides permanent liquidity for the certificate during the whole term. This means it is possible to sell the certificate at current market price anytime before the maturity date.

Raiffeisen Bank International AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein. Certificates are risky instruments of wealth investment. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date.

Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Bank International AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights.
