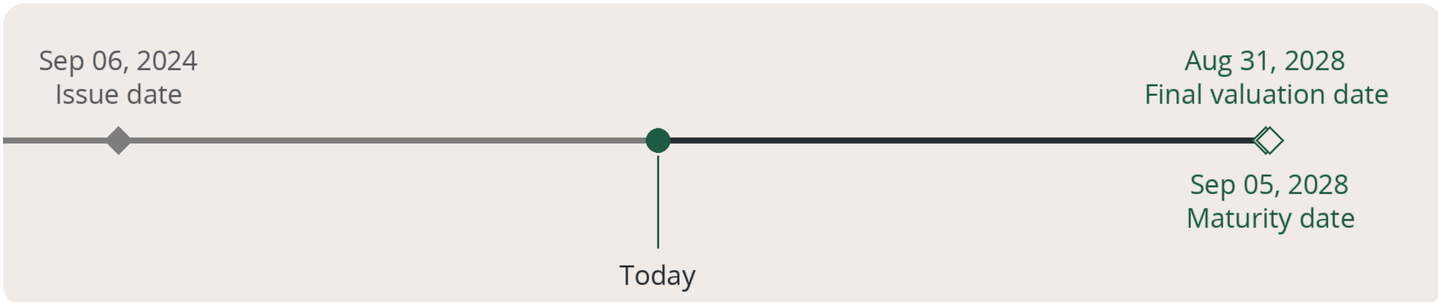
The Certificate

Capital Protection Certificates enable investors to invest into an underlying such as shares, indices, commodities etc. and to be capital protected at the end of the term. Investors obtain either interest payments or participate in the performance of the underlying. This certificate complies with the sustainability standard for Raiffeisen Certificates and takes into account important adverse impacts on sustainability factors ("PAIs").

Sustainability

This certificate complies with the sustainability standard for Raiffeisen Certificates.

Information on the term



Please note:

- 100% of the nominal amount is secured by capital protection at the end of the term. During the term, the price may fall below the issue price or the capital protection level. Selling the capital protection certificate before the end of the term may lead to a loss of part of the invested capital.
- The maximum repayment is limited to 100% + 28% (of the nominal amount).
- Loss of purchasing power due to inflation is not offset by the capital protection.

Issuer risk / creditor participation: Certificates are not covered by the deposit protection system. There is a risk that Raiffeisen Bank International AG may not be able to meet its payment obligations due to insolvency (issuer risk) or any official orders ("bail-in"). In such cases, the invested capital may be lost in full.

Notes:

You are about to purchase a product that is not easy and difficult to understand. For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at www.raiffeisenzertifikate.at/en/securitiesprospectus (we recommend reading the prospectus before making an investment decision), in the key information document and among „Customer Information and Regulatory Issues“ at www.raiffeisenzertifikate.at/en/customer-information. The approval of the base prospectus by the competent authorities is not to be understood as an endorsement of the product by these authorities.

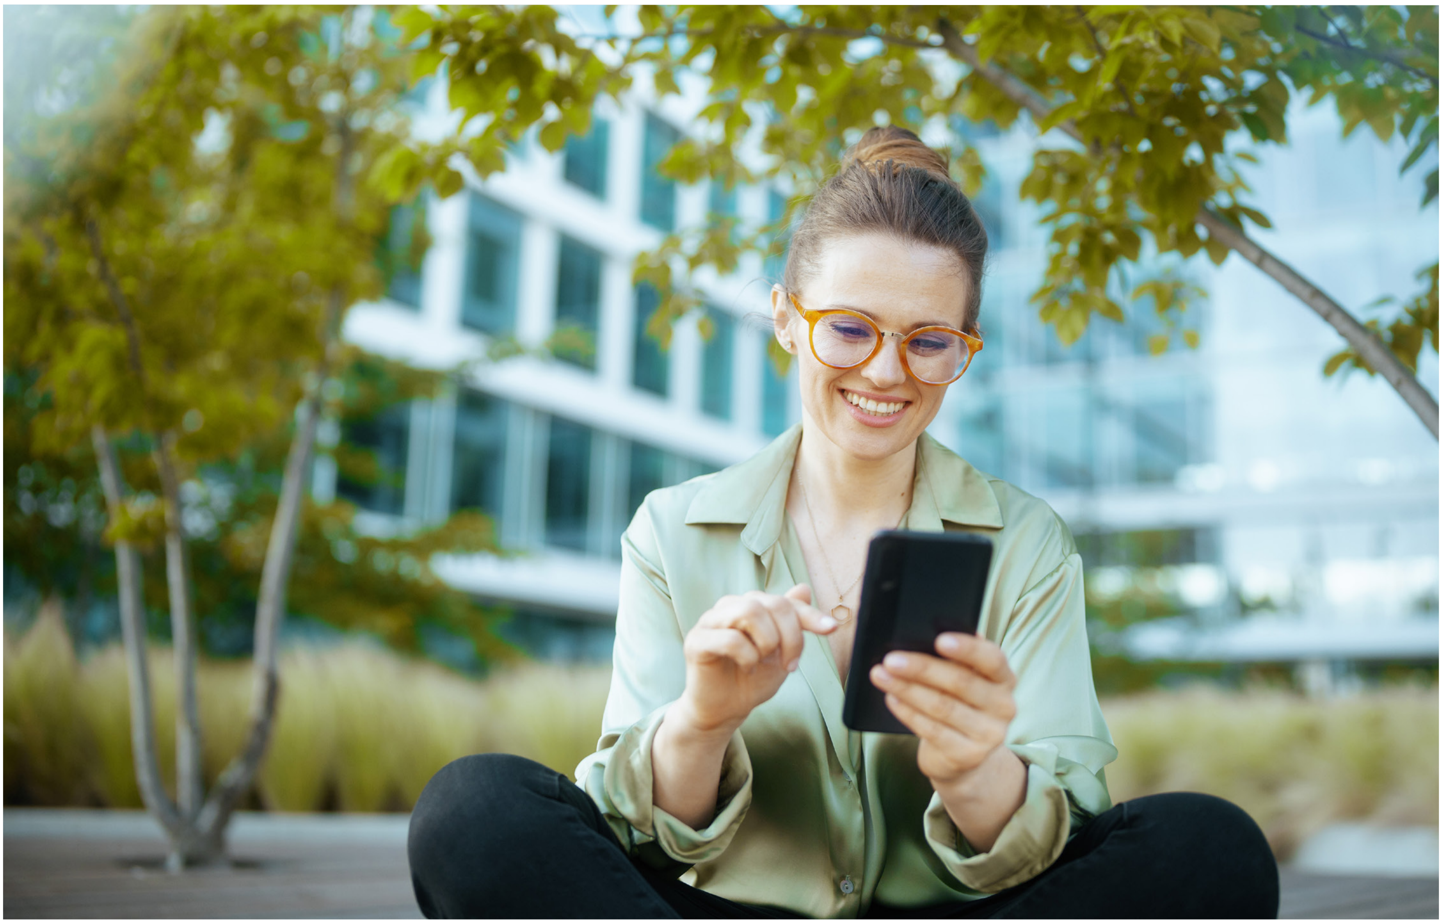
Premium ESG Protected Certificate 11

Investment product with Capital Protection

- Underlying: index of sustainable companies from around the world from the renowned company MSCI®
- 6% fixed income or 1:1 participation in the increase of the index from 6% to 28% of the initial value at the end of the term
- 100% capital protection at the end of the 4 year term

Please note the issuer risk.
Further information on payout profile, underlying index and risks can be found on the following pages.

The financial instrument described herein is based on MSCI® index.



The certificate is equipped with 100% capital protection and 6.00% fixed income at the end of the term. Moreover, the certificate enables investors to participate 1:1 in the performance of the underlying from 6.00% (1.50% annually/1.46% p.a.) to max. 28.00% (7.00% annually/6.36% p.a.) in relation to its starting value at the end of the term.

How the certificate works

At the initial valuation date, the starting value of the underlying index is determined. At the end of the term, the performance of the underlying index is evaluated. This means that at the final valuation date the index closing price is compared to the starting value.

At the final valuation date one of the following scenarios may occur:

1. Increase in the index > 6.00% of the starting value

At the end of the term, investors will be paid a yield 1:1 to the increase of the underlying index (percentage development of the index from the starting value to the final reference value on the final valuation day) up to max. 28.00% of the nominal value in addition to the 100% of the nominal value (equals EUR 280 per EUR 1,000 nominal value).

2. Increase in the index ≤ 6.00% of the starting value

Redemption of the certificate on the maturity date will take place at the level of the capital protection (100% of the nominal value) and a fixed income of 6.00% of the nominal value will be paid (equals EUR 60 per EUR 1,000 nominal value).

Redemption and yield payment examples at the end of the term

Index performance*	Capital protection		Yield**	
+50.00%	100%	+	28.00%	of the nominal value
+20.00%	100%	+	20.00%	of the nominal value
+/-0.00%	100%	+	6.00%	of the nominal value
-20.00%	100%	+	6.00%	of the nominal value
-50.00%	100%	+	6.00%	of the nominal value

* at the final valuation date, in comparison to the starting value.
** provided the certificate was purchased at the issue price of 100%.

Opportunities

- 100% capital protection and 6.00% fixed income at the end of the term (1.50% annually/1.46% p.a.) even in the case of a negative index performance.
- Investors participate 1:1 in the positive index performance up to a max. of 28.00% without having to bear the full market risk at the end of the term.
- You can sell the certificate at any time during its term, the certificate has no management fees.

Risks

- The price of a certificate is subject to various influencing factors, including the performance of the underlying, its volatility and expected dividends, as well as the level of interest rates.
- During the term the price of the certificate may drop below 100%, the capital protection applies exclusively at the end of the term. Loss of value due to inflation is not covered by the capital protection.
