## Description

The certificate **OMV Express 16** refers to the OMV share, offers an annual yield opportunity of 11.5% and an early redemption option. If the share quotes at/above the starting value on one of the annual valuation dates, early redemption is made including interest of 11.5% per year to maturity. If it quotes below the barrier of 60 %, shares are delivered. The value of the shares delivered will be significantly lower than the nominal amount of the certificate.

The payout profile is already fixed when the certificate is issued. It is suitable for investors who expect the share to move sideways/slightly upwards.

## Price certificate (% of the starting value)

# OMV Express 16

## Express Certificate

- Underlying: OMV share
- 11.5% annual yield opportunity, 1-5 year term
- 60% barrier (only active at the end of term),  
market risk if the barrier is violated

Please note the issuer risk.

Further information on the investment product and the risks can be found on the following pages.

ZERTIFIKATE  
AWARD AUSTRIA

Best Issuer  
2025

With this certificate, you have an annual yield opportunity of 11.5% as well as the option of early redemption. If the OMV share is at or above the starting value on one of the annual valuation dates, (early) redemption is made including interest of 11.5% per year of term. If the share quotes at or below the barrier at the end of term, shares are delivered; the value of the shares delivered will be significantly lower than the nominal value of the certificate.

### How the certificate works

On the initial valuation date the starting value of the underlying is fixed and the barrier is determined. On the annual valuation date, the price of the underlying is compared to the starting value. If the underlying is at or above the starting value, the certificate is redeemed (early) at the defined termination price. The maximum possible redemption is limited by the maximum amount.

Annual valuation days	Is the underlying price greater/equal than ...	Termination price
2026	starting value? no	yes ▶ 111.5% (EUR 1,115)
2027	starting value? no	yes ▶ 123.0% (EUR 1,230)
2028	starting value? no	yes ▶ 134.5% (EUR 1,345)
2029	starting value? no	yes ▶ 146.0% (EUR 1,460)
2030	starting value? no	yes ▶ 157.5% (EUR 1,575)
	Is the underlying's price above the barrier? no	yes ▶ 100% (EUR 1,000)
	Share delivery	

If there has been no early redemption by the final year of term and the underlying price is also below the starting value on the final valuation date, the barrier is observed: If the underlying price is above the barrier, redemption is at 100% of the nominal value. If the underlying price is at or below the barrier, you will receive shares in your securities account.

Details on the share delivery can be found on the following page.

### During the term

- You can buy and sell the certificate during trading hours at the current price.
- The price of the certificate is subject to various influencing factors, including the performance of the underlying, its volatility, dividend expectation as well as the interest rate level. This price may fall below the issue price. If the underlying moves close to the barrier, the price may fluctuate strongly.

### Issuer risk / Bail-in

Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Bank International AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

My expectation for the underlyings

**Underlying: OMV share**

**Company description**

OMV AG is an integrated, international oil and gas company with activities in the up- and downstream sector.

**Development in the past**

Please note that the past performance is not a reliable indicator for the future performance.

As of: August 25, 2025; Source: Bloomberg (OMV AV, ISIN AT0000743059)

**Share delivery**

The number of shares you receive in your securities account is calculated as follows:

$$\text{Number of shares} = \text{nominal value (EUR 1,000)} / \text{starting value}$$

As a rule, this does not result in whole numbers. However, as only whole shares can be traded, the market value of the fractional share exceeding this is paid out:

$$\text{Cash settlement} = \text{fractional share} \times \text{final value}$$

**Notes**

You are about to purchase a product that is not easy and difficult to understand.

Further information can be found in the base prospectus (including any supplements) published at [raiffeisencertificates.com/certificatesprospectus](http://raiffeisencertificates.com/certificatesprospectus) and approved by the competent authority, in the key information document for the product and under "Customer information and regulatory information" at [raiffeisencertificates.com/en/customer-information](http://raiffeisencertificates.com/en/customer-information). The approval of the Base Prospectus by the competent authority is not to be understood as an endorsement of the product by this authority. We recommend that you read the prospectus before making an investment decision.

#### Legal and Risk Disclaimer for investors

The information provided is for general information purposes only and does not constitute investment advice, a recommendation or an invitation to execute a transaction. The information is generic and does not take into account the personal circumstances of potential investors. It is therefore not a substitute for individual investor and investment advice and risk disclosure. The advertisement was not prepared in accordance with the legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete legal basis for potential transaction in a financial instrument described here is the Registration Document approved by the Luxembourg Financial Supervisory Authority (CSSF) and the Securities Note approved by the Austrian Financial Market Authority (FMA) – both documents together form the Base Prospectus – together with any supplements and the respective Final Terms filed with the FMA. The approval of the base prospectus by the competent authority should not be understood as an endorsement of the financial instruments described by this authority. Additional information on the financial instrument is available free of charge in the respective key information documents (KIDs) on the website of Raiffeisen Bank International AG (RBI) after entering the Security Identification Number (ISIN) at [raiffeisencertificates.com](https://raiffeisencertificates.com). Unless otherwise explicitly stated in these documents, no measures have been taken in any jurisdiction which should permit a public offering of the financial instruments described therein.

**Issuer risk/creditor participation ('Bail-in'):** All payments during the term or at the end of the term of the certificates are dependent on the solvency of RBI (issuer risk). Investors are exposed to the risk that RBI as the issuer might be unable to fulfil its payment obligations in respect of the financial instruments, e.g. in the event of insolvency (insolvency/over-indebtedness) or an official order for resolution measures by the resolution authority. The resolution authority may also issue such an order before any insolvency proceedings if RBI is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). Among other things, it can reduce investors' claims under the financial instruments described to zero, terminate the financial instruments described or convert them into RBI shares, and suspend investors' rights. Further detailed information is available at [raiffeisenzertifikate.at/en/bail-in](https://raiffeisenzertifikate.at/en/bail-in). A total loss of the invested capital is possible.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a

tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives etc.

The price of the Express Certificate is dependent on the underlying's price. Adverse performances of the underlying may cause price fluctuations of the Express Certificate. If the Express Certificate is sold, there is the risk to incur a substantial loss or even a total loss of the invested capital ("market risk"). The Express Certificate is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), interest rates, solvency of the issuer or remaining term. If the Express Certificate is sold prior to the end of the term, there is the risk to incur a partial or even total loss of the invested capital (price performance). Dividends and similar rights associated with the underlying are taken into account when structuring the Express Certificate and are not paid out.

The financial instrument and the associated product documents may not be offered, sold, resold or delivered or published, either directly or indirectly, to natural or legal persons who are resident/registered office in a country in which this is prohibited by law. In no event may this document be distributed in the United States of America ("U.S.A.")/to U.S. persons and the United Kingdom ("U.K.").

Supervisory Authorities: Austrian Financial Market Authority (FMA), European Central Bank (ECB)).
