DESCRIPTION

The certificate **USD Barrick Gold Express** offers an annual opportunity for early redemption and enables investors to obtain a profit of 10.5% per year if the price of the Barrick Gold share quotes at or above the annually declining termination level. In case the share price quotes below the respective termination level, the term will be extended by another year - up to a maximum of five years. If the barrier is violated at the end of the term, the investor is entirely subject to market risk and physical delivery of Barrick Gold shares is effected.
