DESCRIPTION

The barrier is observed solely at the end of the term. If, at the final valuation date, the closing price of the underlying quotes above the barrier, the bonus amount is paid out at the maturity date. The cap represents the maximum amount.

If, at the valuation date, the barrier is touched or undercut by the closing price, the bonus mechanism is suspended. At the maturity date, payout is effected analogue to the performance of the underlying.

This certificate complies with the **sustainability standard for Raiffeisen Certificates** and takes into account important adverse impacts on sustainability factors ("PAIs").
