The Certificate

With the Bonus Certificate Emerging Markets Bonus&Growth you participate 100% in the performance of the underlying MSCI[®] Emerging Markets Top ESG Select 5% Decrement index at maturity with no profit limit. As long as the barrier of 55% of the starting value is not breached during the term, the redemption will be at least 140% of the nominal value. If the barrier is violated, investors are exposed to the market risk on a one-to-one basis. This means that a significant loss of capital is possible in this case.

The payout profile at the end of term is already fixed when the certificate is issued. It is suitable for investors who expect slightly falling/sideways running indices.

The underlying asset is the MSCI Emerging Markets Top ESG Select 5% Decrement Index. This index contains 340 international stocks with the highest ESG scoring. The [index methodology \(PDF\)](#) and further information on the index can be found on the website of the index provider [MSCI[®]](#) by selecting the index in the drop-down menu. This certificate complies with the [sustainability standard for Raiffeisen Certificates](#) and takes into account important adverse impacts on sustainability factors ("PAIs").

Sustainability

This certificate complies with the sustainability standard for Raiffeisen Certificates.

Information on the term

Please note: The price of the certificate is subject to various influencing factors, including the performance of the underlyings, their volatility, correlation and dividend expectations as well as the interest rate level. This price may fall below the issue price and, especially if at least one of the underlyings is close to the barrier, may fluctuate strongly.

Issuer risk / creditor participation: Certificates are not covered by the deposit protection system. There is a risk that Raiffeisen Bank International AG may not be able to meet its payment obligations due to insolvency (issuer risk) or any official orders ("bail-in"). In such cases, the invested capital may be lost in full.

Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Bank International AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at raiffeisenzertifikate.at/en/bail-in. A total loss of the invested capital is possible.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change.

The Bonus Certificate's price is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), bond interest rates, solvency of the issuer or remaining term. If the Bonus Certificate is sold prior to the end of the term, there is the risk to incur a partial or even total loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Bonus Certificate and are not paid out.
