THE AWARD

Honored by Warsaw Stock Exchange: RCB has managed to successfully and dynamically expand the range of structured products on the Polish market and to continuously develop its product portfolio in Poland.

Raiffeisen Centrobank AG (RCB) continues its great success and is once again awarded for its expertise in the field of structured products. At the gala night organized by the Warsaw Stock Exchange (WSE) RCB was awarded for its outstanding commitment to the development of the Polish structured products market in 2018. Innovation, communication and investor-focus have been at the heart of RCB's cooperation with the WSE since 2007. RCB has been actively promoting the certificates market on the WSE by issuing structured products that match investors' demands and providing transparent information on certificates. Additionally, as market maker, RCB provides liquidity and offers customers the possibility to trade on the secondary market.

Since entering the Polish market in 2007 with just seven certificates, RCB has expanded its product offering by listing more than 300 certificates on WSE in 2018 alone, thus reaching a total of over 700 listed products.

All winners at the Stock Exchange Market Gala in Warsaw.
